Washington, June 26.—President Wilson has decided to nominate Mrs. Edward W. Carmack, widow of Senator Carmack, postmistress of Columbia.
Tenn. Senator Carmack, after a brilliant career in the Senate, was shot and killed at Nashville several years ago as a result of the liquor and antiliquor fight in Tennessee. Mrs. Carmack was socially prominent while her husband was in Washington.

WILSONS ENTERTAIN

Whether Carranza would accept the invitation, however, still remained an open question, despite the fact that Venezuelan Representative to United
States Succumbs to Heart Failure.
Atlantic City, N. J., June 26.—P.
Ezequiel Rojas, minister from Venezuela to the United States, died here to-day. Death was due to a heart condition of long standing. He was sevenly years old.

Open question, despite the fact that some of his agents here had telegraphed him at Monterey for a definite answer. Rafael Zubaran, one of the Constitutionalist agents here, said to-night he believed General Carranza would authorize the participation of would authorize the participation of conference, but that, in the meantime, the military campaign of the revolutionists against Huerta would pro-

REBELS TO CONTINUE

MILITARY CAMPAIGN.

Mr. Breceda, Carranza's aide de camp, brought to Washington to-day the positive information that it is the purpose of the Constitutionalists to continue their military campaign, regardless of the peace conference. San Luis Potosi, it was stated, would be the next objective point of the military aggression against fluerta. After San Luis Potosi, the revolutionists expect Huerta's troops to make their last stand at Querataro. Their leaders stand at Querataro. Their leaders have so indicated to the Washington government, and they insist that General Villa will be on the cerge of entering Mexico City within less than a

month.

With this military prospect assured, some of the Constitutionalist leaders are known to take the view that it would be better to have a provisional government established in Mexico to oversee an election than to permit a military force, flushed with the fruits of a great conquest, to supervise the wreck of a dictator's regime. General Villa, they point out, is willing to listen to reason. General Carranza, they say, might be induced to accept this point of view.
